**COFFEE CONCEPTS**

# Enjoy premium coffee at your office

*Having a good coffee offer in an office might seem like a small luxury, but it can have a significant impact on employee satisfaction and productivity. Here are a few reasons why:*

## **BOOSTED MORALE:**

A high-quality coffee offer can make employees feel valued and appreciated. It's a small but meaningful way to show that the company cares about their comfort and satisfaction.

## **INCREASED PRODUCTIVITY:**

Caffeine can improve alertness and concentration. A good coffee break can recharge employees, making them more productive when they return to their tasks.

## **SOCIAL INTERACTION:**

Coffee breaks provide opportunities for employees to interact and bond with colleagues. These informal interactions can improve team cohesion and foster a more collaborative work environment.

## **MENTAL HEALTH:**

Taking a break to enjoy a cup of coffee can help reduce stress and provide a moment of relaxation in an otherwise busy workday.

## **TALENT ATTRACTION:**

Offering good coffee can be a small but attractive perk when recruiting new talent. It shows that the company pays attention to the little details that contribute to a positive work environment.

# Our Clients

Our customers include some of the largest restaurants, hotels, and coffee chains in Vietnam, such as: Bosch, Adidas, Zalo, Samsung, Viettel, Vietcombank, ACB, Agribank and many other customers we served around Vietnam.

# THE PERFECT SOLUTION FOR EACH **COFFEE** LOCATION

*Carefully choose the right coffee machine for each office location.*

While at the reception or in conference room pantry you may want to have a small elegant and quiet machine you may want to consider a high capacity machine at the cafeteria which allows a variety of coffee specialties to be prepared in self service. If you have a staffed cafeteria you may even consider a traditional semi-automatic machine so a barista can prepare espresso based drinks on a very high level.

***CUBES Asia has a variety of options for each location to ensure a well working yet cost conscious solution.***

Our consultant team can prepare several solutions for your business which will also consider how the equipment is ready for a future expansion.

## Small office Capsule system

With a capsule machine even small offices with a low budget have the possibility to offer delicious coffee. The Cararro capsules with Nespresso system come in 13 blends to choose from to suit all preferences. Enjoy Gourmet blends of Italian coffee, single origin blends and even flavoured blends with Hazelnut or Caramel.

If you like a cappuccino add a milk frother next to your capsule machine.

The Nespresso compatible coffee solution is perfect if you need 2-5 cups per day.

We will take back the used aluminium capsules and ensure that they are recycled properly.

# Scishare S1201

Nespresso® Compatible  
Compact design  
Rapid heating technology  
"Cup Memory" function  
Compression pressure: 20 bar

# Boutique office

Compact automatic coffee machine

With cost-efficient bean-to-cup machines from Germany you can enjoy freshly prepared coffee at the push of a button. Your visitors will be impressed by the delivery of flavours. The Melitta machines are easy to use and quiet so they can be placed at the reception or in the conference room.

While the entry level delivers just freshly brewed drinks the advanced machines automatically prepare exquisite coffee specialties like cappuccino or latte at the push of a button. This coffee solution is great for offices with 5-35 cups per day. Cararro offers a wide array of original Italian blends to explore.

## Large office – Barista coffee

Full size automatic coffee machine

If it is within your budget the premium experience is a managed cafeteria with a barista preparing drinks individually on order.

The right tool for a barista is a traditional Italian espresso machine that allows customised extraction and temperature control as well as strong steam power.

The machines from ECM Germany or Victoria Arduino Italy combine advanced technology with elegant design and come with matching grinder. The perfect cappuccino with latte art and all other specialty coffee drinks delivered by a good barista ensure an ultimate coffee experience for your guests and staff. This coffee solution can deliver from 150 to 500 cups per day.
